

Use a pair of tweezers to pick up small objects that you have around the house such as pasta or small toys. You could make it into a game by using a timer to see how many items you can pick up in 1 minute.

Turn a colander upside-down and thread pipe cleaners through the holes. You could also put tape around the end of wool or string and thread that through instead if you do not

## Funky Fingers

Stand up a piece of spaghetti using blue tac or playdough. Use this to then thread different objects onto it such as pasta or beads.

Attach clothes pegs to different materials. You could even make it a game and see if you can attach them to people's clothes without them noticing or count them as you peg them on.
